

Dump Cake, Cherry

Courtesy of Carole's Creations

Prep Time: 10 minutes

Cooking Time: 1 hour

Serves: 8

CChints: This is the quickest cake you will ever pull together. You can change the recipe up to make it different each time.

1 large can crushed pineapple, not drained

1 can cherry pie filling, not drained (to change it up from time to time use blueberry, peach or apple. Any flavor will be yummy)

1 box yellow cake mix (For combining with peach or apple pie filling you may want to use a cake mix with a little more zing like a spice cake.)

1/2 cup chopped nuts, pecans or walnuts

1/2 stick of butter cut into thin slices or for the lighter side, use Spray butter

1/3 teaspoon cinnamon for peach or apple pies only if using a yellow cake mix

Vanilla Ice cream

Preheat oven to 350 and spray a 9x13 pan with cooking spray.

Layer the ingredients in the pan starting with the pineapple. Spread out evenly in the bottom of the pan. Spoon the pie filling on top. Sprinkle the dry cake mix over the top. Gently even out mix and break up and bumps but be careful not to expose the filling underneath. If making a peach or apple dump cake, sprinkle the top with cinnamon.

Lay the thin slices of butter evenly over the top of the mix. If using spray butter, be sure to cover the entire surface but don't make it soggy. Sprinkle with nuts and bake for 1 hour until golden brown on top.

Remove from the oven and let sit for 5 minutes or more. Scoop out the cake onto plates and top with ice cream.

Cover and refrigerate any leftovers for up to 3 days. Reheat in a microwave container for 30 seconds.
